triOS College: Mobile and Web Developer

May 2024- Present

Relevant Course Work: Graphic Design, React Development, Mobile App Development (iOS & Android), Swift, Kotlin, Firebase, Jetpack Compose.

University of Punjab: Bachelor of Arts in Journalism

January-2015

CERTIFICATIONS

Google IT Support Professional Certificate • Customer support, troubleshooting, computer hardware/software

October-2023

PROFESSIONAL EXPERIENCE

Gravity Autos Customer Service Representative, Remote

March 2021 - April 2024

- Providing customer service and support for Gravity Autos' clients
- Problem-solving and customer interaction.

April-2025-Present

Upper Canada Child Care: Assistant Teacher

- Contribute to the preparation of lesson materials and class activities.
- Help maintain a collaborative and inclusive learning environment.

PROJECTS

May-2024-Present

- Designed and supported full-stack web and mobile applications from development to deployment.
- Executed regular software updates, debugged critical issues, and improved system stability.
- Collaborated in remote environments using Git and participated in code reviews.
- My Guitar Shop (Web App) – PHP, MySQL, HTML/CSS
- Built a CRUD-based product management system using PHP and MySQL for back-end operations. - Designed and styled user interface with HTML/CSS to simulate a real-world e-commerce environment. - Improved data integrity through validation and testing, reflecting real-life software support tasks.
- Circle 5 — Mindful Social Networking (SwiftUI + Firebase)
- Structured the app using MVVM architecture, leveraging @StateObject, @EnvironmentObject, and @Published for responsive data handling. Integrated gesture recognition, animations, and custom UI elements for an engaging and modern user experience
- Podcast Search App – Kotlin, Jet pack Compose
- Created a podcast search interface using REST API, Retrofit, and reactive UI with Jetpack Compose. - Used View Model and Live Data for clean state management and testing purposes. - Showcased Android development, API handling, and troubleshooting
